

# *Showcase Your Vision! Rules*

## **RULES OF THE CHALLENGE**

**Participation in the challenge is open to SFNPCC members, officers, and directors in good standing ONLY.**

- 1) Photo(s) must have been taken and edited only by you, during the stated quarterly timeframe, to fit the given theme.
- 2) You may submit up to two (2) images, but it's not required (one is fine).
- 3) Photo(s) can be taken with any camera (cell phones too) – cameras are, after all, just a tool.
- 4) Photo(s) can be edited with whatever software program you use. However, we stress that nothing fake is added to the image, and no extreme time-blending is used. (More detailed EDITING rules are shared in a separate file.) Basically, don't add anything that's not already there, and don't remove anything major.
- 5) Photo(s) must NOT have any identifiable marks or watermarks added to them. This is an anonymous challenge. Also, do not remove the metadata. If I cannot determine when the photograph was taken, it will be disqualified.
- 6) Photo(s) must be exported as a JPG and sized for viewing on the web. (See below for export settings).
- 7) Photo(s) must be submitted by the deadline. Anything submitted after the deadline will not be considered.
